Experience Better Living

CASSETTES

The Triton Optimyst fire creates a striking and immersive fireplace experience with advanced 3D multicolour flames. Available as Triton 1000 (1 meter) and Triton 1500 (1.5 meter), it fits a wide range of interior designs. Multiple nozzles generate a rich and dynamic flame pattern, enhanced by a realistic logset with real wood chips as base decoration and bottom lighting for a warm glow. Subtle crackling sound effects further elevate the authentic fireplace experience. Designed as a true centrepiece, Triton can be installed as a single unit or combined seamlessly for an endless fire view. Control is effortless via the appliance, remote or Flame Connect app, while operation is possible with a fixed water connection or an easy refill tank.

- Optimyst technology with multiple nozzles for rich flames
- Realistic logset with real wood chips and bottom lighting for real fire ambience
- Operates on fixed water connection or easy refillable tank
- Integrated crackling sound effects with adjustable volume levels
- Full control via app, remote control or directly on the unit
- Connect multiple units together for a seamless endless flame view

- All-round view.
- Possibility to connect multiple units together
- Surprising by the floating flame and smoke effect and variable flame intensity
- The new Optimyst flame technology, with multiple nozzles creating flames from different points for a richer, more dynamic fire effect
- Flames and lamps use energy-efficient LEDs that require no maintenance
- Resin log set with real wood chips for an authentic fire experience
- The colours of the flame can be adjusted to the colours blue, violet, red, aquamarine or change the colours to a mix by using the Flame Connect app
- Flame Connect app available for smartphone
- Very suitable for installation
